1 Suggestion for Meal replacement manufacturing

In the growing meal market, it is through that new construction and renovation of prepared dish factory will increase. This exhibition focuses on the "manufacturing equipment" of the meal service industry, such as making the process, center of the retail industry, improving the efficiency of the cooking process, sanitation, management method, etc.

2 Approach to Food-related businesses

Many food manufactures, distributor / retailers, food service personnel will visit at the simultaneous "Food System Solution", " Food Safety Japan", " Food Factory" and "Food Distribution".

3 Attractive Event

As the meal market continues to grow, there are many problems such as complication of production lines and diversification of operations between factories and shop, and many companies seek improvement proposals. In this exhibition, we will hold a seminar to meet such needs and attract visitors.
